

### REMARKS

This Amendment is submitted simultaneously with filing of the above identified application.

With the present application applicant has canceled the original claims and submitted a new set of claims.

It is respectfully submitted that the Examiner's grounds for the rejection under 35 U.S.C. 112 should be considered as no longer tenable.

In accordance with the present invention an active substance is made in a therapeutic dose, and then from the same initial material a potentiated substance is formed by homeopathic method by multiple dissolving to a small dose which is "a homeopathic dose" and in accordance with the homeopathic process. It is therefore believed that the Examiner's grounds for the formal objections and rejections should be considered as no longer tenable and should be withdrawn.

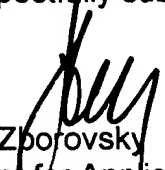

As for the Examiner's rejection of the claims over the art, it is respectfully submitted that the patent to Acanov applied by the Examiner does not teach the new features of the present invention as defined in the claims.

The Examiner teaches an active medicinal substance in the therapeutic dose. However, it does not teach a potentiated homeopathic medicinal substance from which a corresponding bioenergetic information is transferred to the material carrier to form a final medicinal substance. Thus, this reference does not teach the new features of the present invention.

It is respectfully requested to allow the present application.

Should the Examiner require or consider it advisable that the specification, claims and/or drawings be further amended or corrected in formal respects in order to place this case in condition for final allowance, then it is respectfully requested that such amendments or corrections be carried out by Examiner's Amendment, and the case be passed to issue. Any costs involved should be charged to the deposit account of the undersigned (No. 26-0085). Alternatively, should the Examiner feel that a personal discussion might be helpful in advancing this case to allowance, he is invited to telephone the undersigned (at 631-243-3818).

Respectfully submitted,

Ilya Zborovsky  
Agent for Applicant  
Reg. No. 28563
